JOB SHADOW 2018
INTEREST FORM

What is Job Shadow?

Job Shadow is a great opportunity to follow a workplace mentor as he or she goes through a day on the job. This gives you an up-close look at how skills learned in school are put to use in the workplace. It may give you a clearer idea if a career you've thought about pursuing is something you'd really like to do once you graduate from high school or college.

When is Job Shadow?

We arrange job shadow opportunities with professionals from businesses in the area specifically for our students. Job Shadow is typically held every year in the Spring. This year, Job Shadow will take place between **Monday, March 26th and Friday, April 27th**. Students will have that entire time period to participate in 1 Job Shadow day. Students will spend a half-day or full school day shadowing an individual from one of their top three career selections. Guidance will do our best to place students. Please keep in mind that in an increasing litigious society some fields of occupation may not be available to students.

How do I get started?

Below, list in order of preference three professions or jobs you'd like to explore. We will do our best to arrange a job shadow experience for you in one of your choices.

First choice: _____

Second choice: _____

Third choice: _____
